

WE ARE ON THE LOOKOUT FOR DESIGN TALENT!

Innovia Technology is a Cambridge-based consultancy specialising in early-stage, breakthrough innovation for clients such as Procter & Gamble, Shell, Boeing, Jaguar Land Rover, Pepsi, and Kraft.

Innovia is an exciting workplace for product designers: the diversity of projects gives you opportunities to be involved in the creation and development of medical devices, transportation, point-of-sale materials, packaging, apparel, home appliances, consumer electronics, and much more! Innovia's tightly knit teams mix designers with other innovation experts, including behavioural scientists, engineers, business developers and, PhD-level scientists, to enable designers to catapult their thinking and concepts into breakthrough innovations.

Designers play a key role in these teams, translating insights from consumer behaviour into compelling new products and experiences that consumers will love, and working with multi-disciplinary teams to make them real.
